

RONIT GIRI

Java Full Stack Developer

India | [Email Address] | [Phone Number] | LinkedIn: [Link] | GitHub: [Link] | Portfolio: [Link]

PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Applications student with a strong foundation in Java and hands-on experience building full stack web applications using Angular, Spring Boot, and MySQL. Skilled at designing and consuming RESTful APIs, writing clean and maintainable code, and translating requirements into working features. A fast learner with a genuine passion for software development and a disciplined approach to debugging and problem-solving. Comfortable working independently on end-to-end project development, from database design to responsive front-end interfaces. Seeking an entry-level Java Full Stack Developer role to contribute technical skills, grow within a collaborative engineering team, and deliver reliable, well-tested software.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, HTML5, CSS3, SQL

Frontend: Angular, RxJS, Responsive Design

Backend: Spring Boot, REST API

Database: MySQL

Tools: Git, GitHub, VS Code, Postman

PROJECTS

Conference Room Booking Management System

Tech Stack: Angular, Spring Boot, MySQL

- Designed and developed a full stack web application enabling employees to search, reserve, and manage conference rooms in real time, eliminating manual double-booking conflicts.
- Implemented secure user authentication and role-based access control, allowing separate permissions for employees and administrators.
- Built RESTful APIs with Spring Boot to handle room availability, booking creation, updates, and cancellations, integrated with a MySQL relational database.
- Developed CRUD functionality for managing rooms, bookings, and user accounts, reducing manual scheduling effort for a simulated office of 50+ users.
- Created a responsive Angular interface with dynamic booking calendars and instant feedback, ensuring smooth usability across desktop and mobile devices.

EDUCATION

Bachelor of Computer Applications (BCA)

Indira Gandhi National Open University (IGNOU) | 2023 – Present

CERTIFICATIONS

- Java Full Stack Development

ACHIEVEMENTS

- Independently designed and built a complete full stack project from database schema to deployment-ready front end, strengthening end-to-end development skills.
- Consistently practice Java and Angular through self-directed coding exercises and mini-projects to reinforce core programming concepts.
- Actively expanding knowledge of REST API design and relational database modeling through hands-on practice with Spring Boot and MySQL.

LANGUAGES

English, Hindi
